*A man who symbolizes
all of the traits
we admire in
the rare
creature
called
"a gentle man."*

*Memories of
you will be
treasured dreams.
May all your wishes
be fulfilled. The
very best of luck.

Dedication

All too often we overlook the real meaning of a gentleman. A gentleman is a gentle man. He is kind when we need kindness. He is just when we need to know the right thing to do. He is understanding when we need to be understood. He is never inconsiderate of other peoples' feelings and always aware of their beliefs.

It is only through knowing such men as this that we are able to learn what a true gentleman is. Only through being exposed to such men can we become gentlemen ourselves.

We, the graduating class of 1964, are lucky to have had such a man as Mr. Kramer for our class sponsor. We have known him in two ways. First of all as a teacher who taught not only dates and battles, but ideals. Secondly, as a friend who lived by those ideals. If we are lucky, those ideals will live with us long after Mr. Kramer's obligation to us is fulfilled. With so fine a teacher and gentleman having guided us, they are sure to.

Foreword

The halls are empty now. Technically it is still a school, but we shall not remember the bricks and the beams. Room 209 will be remembered as Mr. Kramer's room. Without him and our classmates the shell is nothing but an impersonal classroom with no warmth or character. Men do not miss mortar and concrete. They miss the people with whom they shared the happy times as well as those trying moments.

Memories are made of people, not places. First love . . . first heart-break . . . first car . . . first dented fender . . . that final game with Montour three years ago that lost us the section championship and the way we stood on each other's shoulders because it was so crowded . . . the way we hated the hallguards until we became hallguards ourselves . . . that final we crammed for and passed by two or three points . . . the date with an angel . . . the flat tire that ruined everything . . . things we laughed about . . . things we cried about . . . things we hope this volume of the *Flame* will bring to mind long after the mortar falls out and the bricks are replaced.

Track

Mr. Kerr and Mr. Gracey

The track team would like to thank Mr. Kerr and Mr. Gracey who "stepped in" and took over the job of coaching the track team due to Mr. Merges illness. Their expert coaching led to another winning season last year.

Foreign Exchange

In the two years in which Moon has participated in the student exchange program with South American Countries, six of our students were sent to such places as Colombia and Ecuador and in return, we have welcomed six South American students. Rosa Zorilla and Ricardo Chacon are the current foreign exchange students studying at Moon. They are citizens of Argentina and from them we learn a great deal about the differences in culture between our two countries. Whatever the differences, we have learned that people are people. If the exchange program does nothing else than teach us that all men are a part of one race, it will be doing much more than we could hope for.

Student Director:
Walt Acheson with Mr. Hazeem

The senior high choir, under the direction of Mr. Hazeem, enjoyed one of its most successful Christmas holiday singing seasons it has ever had. The choir traveled to Pittsburgh and appeared on the television program "Daybreak" and sang at the U.S. Steel Building. The choir made two appearances at Carnegie Music Hall at the "United We Sing" festival and as usual spent an evening carolling at the airport. The season was topped off with a Christmas Concert in the high school auditorium. Congratulations, choir for a job well done.

...WE ALSO MAKE LOCK SPRINGS

Airplanes and lock springs. What's the connection? Rockwell-Standard®. We spread ourselves out without spreading ourselves thin. Nobody turns out more types and sizes of springs. Heavy-duty springs to take the jolting loads of 100-ton off-highway vehicles. Precision springs as fine as a human hair for cylinder and tumbler locks. And the new Jet Commander, first American executive jet aircraft to break the high-price barrier, speaks eloquently for our competence in the field of aviation. Specialists in springs. Specialists in airplanes, specialists in ten other major product lines. We've contributed a number of "firsts" in all the fields we serve. That testifies to our ability to solve many problems well. And to do it for people all over the world. We'd like to serve you. Write today for our booklet "Dynamic... Diversified" for the full story. Rockwell-Standard Corporation, Department Z, 300 Sixth Ave., Pittsburgh, Pennsylvania.
